Democratic participation and Ecology: Project to develop European consciousness and democratic behaviour in a sustainable environment

- ▶ Much is an application that helps reducing food waste
 - ▶ How? – It helps restaurant sell the daily leftovers via the app

WHAT'S MUNCH?

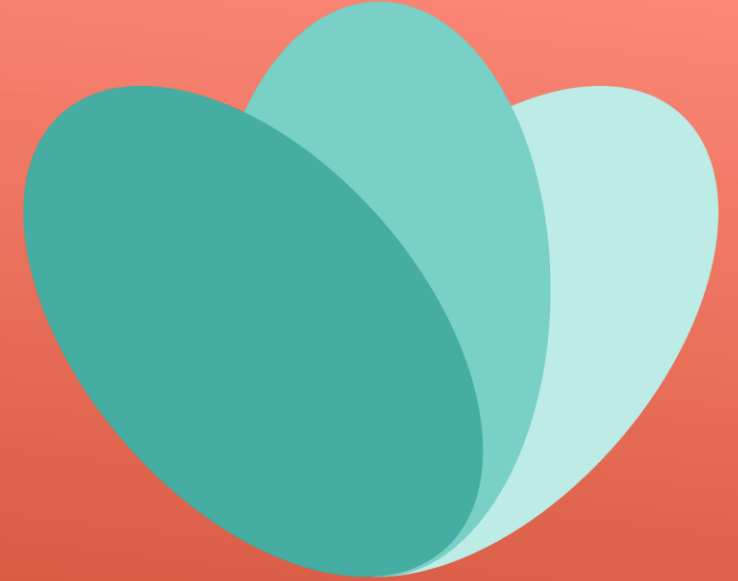

- ▶ After looking for a restaurant that could adapt to everyone in the group, we went to a Turkish restaurant.
- ▶ We all found something that we could enjoy, and it was overall a great experience and an opportunity for teambuilding.

OUR EXPERIENCE

- ▶ It provides a great variety of places that we possibly wouldn't visit if it wasn't because of this app.
- ▶ We help to reduce the wastes of restaurants by buying their food cheaper and we also helped little businesses to keep growing
- ▶ Sometimes it isn't possible to find what you are looking for, for example it maybe the case that there are only bakeries and you want to have dinner.

OPINIONS ABOUT MUNCH

- ▶ The app is called the same in all the other countries
 - ↳ Too good to go

Too Good To Go
