What is munch?

- ▶ Munch is a hungarian app that was made to reduce foodwaste in our country.
- ▶ Restaurants and bakeries give away food for a lower price so they don't have to throw it out.

Our experience
Westend- Atikos Greek Restaurant

Advantages:

- Cheap
- No waiting
- Reduces foodwaste
- Tasty food
- The guy was kind and let us choose
- They had vegetarian food
- Workers were friendly

Disadvantages:

- The food was a bit cold
- Normally you can't choose
- We got plastic forks

Thank you for your attention!

(The best)
